EXPERIENCE

Software Developer

Antier Solutions

📅 January 2023 – Present

Application Development: Designed scalable web apps integrate smart contracts with React.js, Next.js, Web3.js, Ether.js, Node.js, and MongoDB.

Performance optimization: Utilized React.lazy and Suspense for code splitting, reducing bundle sizes by 40% and load times by 50%.

Team Leadership: Mentored junior developers, conducted code reviews, and established coding standards, improving team productivity by 25%.

Software Developer Associate

Suffescom Solutions

📅 August 2022 – November 2022

- As an Associate Software Developer, built and maintained responsive web apps and APIs with Next.js, React.js, and Redux, collaborating with designers to improve user engagement and mobile conversions.

Assistant Software Developer

Starlink Technology

📅 September 2020 – August 2022

- As an Assistant Software Developer, Engineered and maintained fast, responsive web apps and APIs using Next.js, React.js, and Redux, boosting user engagement and mobile conversions through team collaboration.

PROJECTS

LumenFiAi

react.js, node.js, mongodb, react-bootstrap

- Developed a secure ICO and staking platform enabling users to buy and stake tokens.
- Implemented reward system for stakers with dynamic percentage returns.
- Website : <https://lumenfiai.com/>

LXX-DAO

react.js, redux, typescript, react-bootstrap

- Built an ICO-based MLM investment platform where users can purchase tokens and earn referral rewards.
- Developed secure wallet integration for token purchases using Web3 and smart contracts.
- Websites: <https://dashboard.lxx-dao.com/>

ABOUT

Software Developer with expertise in JavaScript and React.js. I work with real-time features using Socket.io, manage complex state using Redux, and build scalable, maintainable applications. I also work with backend technologies like Node.js and Express.js. Experienced in Web3 development, I integrate smart contracts into React apps using Ethers.js, enabling seamless blockchain interactions. I focus on clean code, performance, and reliable integrations.

SKILLS

React.js Next.js Node.js Redux
TypeScript JavaScript HTML CSS
MongoDB SQL Git Docker
Nest.js Web3.js Ether.js Socket.io
Payment Gateway Integration

HOBBIES

- Regularly follow global news with a focus on geopolitics and international affairs.
- Playing badminton in my free time.

EDUCATION

B.Tech in Electronics and Communication

RGPV, Bhopal

📅 2015 – 2019

CERTIFICATION

- The Complete React js course - Udemy
- Javascript-Basics to Advance - Udemy
- The Git Github Bootcamp - Udemy
